1. The information disclosure statement filed 3/3/06 fails to comply with 37 CFR 1.98(a)(1), which requires the following: (1) a list of all patents, publications, applications, or other information submitted for consideration by the Office; (2) U.S. patents and U.S. patent application publications listed in a section separately from citations of other documents; (3) the application number of the application in which the information disclosure statement is being submitted on each page of the list; (4) a column that provides a blank space next to each document to be considered, for the examiner's initials; and (5) a heading that clearly indicates on each page of the list that the list is an information disclosure statement. The information disclosure statement has been placed in the application file, but the information referred to therein has not been considered. Since page 2 of the Information Disclosure Statement does not include the application number nor a heading indicating that it is part of the Information Disclosure Statement, the Information Disclosure Statement fails to comply with the said requirements. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).
2. Additionally MPEP 609.4(a) describes the following:

An information disclosure statement (IDS) must comply with the provisions of 37 CFR 1.98 as to content for the information listed in the IDS to be considered by the Office.

37 CFR 1.98(a)(1) also requires that each page of the list must clearly identify the application number of the application in which the IDS is being submitted, if known. In the past, the Office has experienced problems associated with lists that do not properly identify the application in which the IDS is being submitted (e.g., when applicants submit a list that includes copies of PTO/SB/08 or PTO-892 forms from other applications). Even though the IDS transmittal letter had the proper application number, each page of

the list did not include the proper application number, but instead had the application numbers of the other applications. If the pages of the list became separated, the Office could not associate the pages with the proper application.

37 CFR 1.98(a)(1) also requires that each page of the list include a heading that clearly indicates that the list is an IDS. Since the Office treats an IDS submitted by the applicant differently than information submitted by a third-party (e.g., the Office may discard any non-compliant third-party submission under 37 CFR 1.99), a heading on each page of the list to indicate that the list is an IDS would promote proper treatment of the IDS submitted by the applicant and reduce handling errors.

3. Thus, since each page of the list of documents of the singly-filed IDS of 3/3/06 does not meet the requirements of 37 CFR 1.98(a)(1), the IDS is improper and not considered.

Applicant's allegation that "the Office's current position is unfounded and un-defendable" is contrary to the requirements of the Patent Rules - Title 37, which clearly and specifically defines that "each page of the list must include" the noted elements. The applicant's further allegation that the refusal of the Examiner to consider the references "hints at dereliction of duty" represents applicant's opinion, which holds no weight in the determination of compliance of an Information Disclosure Statement.

4. Claims 12-14 and 54 are allowed over the art of record.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory C. Issing whose telephone number is (571)-272-6973. The examiner can normally be reached on Monday - Thursday 6:00 AM- 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Tarcza can be reached on (571)-272-6979. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
